Dissertation Proposal: consisting of the following chapters:

“Government Guarantees, Risk-Shifting, and the Importance of Pre-existing Bank Exposure”

“Bank Capital Structure and Specialized Customer Relationships”

“Bank Concentration, corporate lending and industry innovation”

Ewa Kochanowska

Dissertation Proposal: “The Role of Affect and Interoceptive Accuracy in Decision-making and Social Perception”

Joseph Korkames

Joseph is interested in bettering our understanding of how organizations and other economic entities market and finance themselves, in the empirical reality and optimally. Some current works involve meta-analysis, advertising spending, and marketing allocations. He intends to address problems in these areas via a holistic approach utilizing tools from marketing, finance, accounting, econometrics, economic theory, strategy, innovation, mathematics, and other social disciplines

Giacomo Marchesini

Marchesini, G. (2019). “The Effect of Short-term Orientation on Technological Diversification” (Working Paper)

Maoret, M., & Marchesini, G. (2019, July). “The symbolic effect of status on performance: Effect or fable?” In Academy of Management Proceedings (Vol. 2019, No. 1, p. 12712).

Phu Nguyen Thien

“What does it mean to call an experience “meaningful”? What does this mean in the context of work and organizations? What implications does this understanding have on management and leadership?”

Clinton Ofoedu

Dissertation Proposal: “Antecedents of Firms’ in and out-Licensing Behaviors”

Winslow Robertson

Dissertation Proposal: “Ideology and Management”

Shagun Tripathi

Dissertation Proposal: “Essays on Algorithmic Governance in The Platform Economy”

Silvia Velmer

Dissertation Proposal: “Ethics and organizational learning across logics heterogeneity”

Dandan Xia

“Innovation Subsidy and Firm New Product Performance – Evidence from China”

Zhiqiang Ye

Dissertation Proposal: “Thesis on Information Economics and Banking”

Alexis Yong

“Does Voluntary Regulation Supplement or Substitute for Organizations’ Readiness for Climate Change? Evidence of The Impact of Voluntary Regulation on Green Public Procurement” by Inés Alegre, Alexis Yong, Horacio E. Rousseau, Pascual Berrone & Joan Enric Ricart
